

HIGH VELOCITY PROTECTION

2006/07 EYEWEAR

A photograph of two soldiers in a combat environment. They are wearing tan tactical gear, including helmets and vests. The soldier on the right is holding a rifle and looking through the sights. The soldier on the left is looking towards the camera. They are positioned in front of a stone wall with a large rectangular opening. The scene is set outdoors with some greenery in the background.

COMMAND THE FIELD OF VISION

2006/07

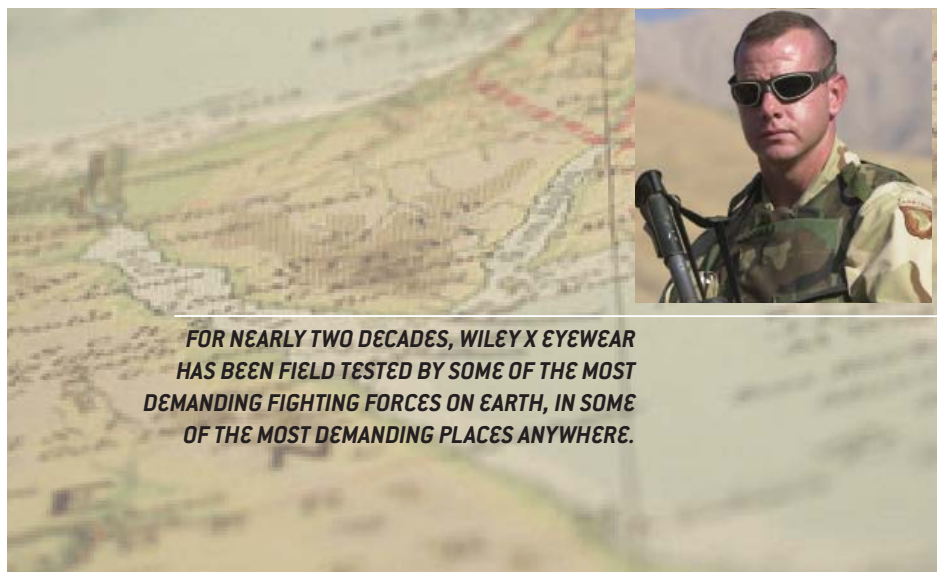

WELCOME TO THE OVERPROTECTIVE WORLD OF WILEY X. For nearly two decades, we've been perfecting shatterproof eyewear for the demanding environments our fighting forces encounter every day. Wiley X supplies eyewear to the Army Rangers, Special Forces, Navy SEALs, Marine Corps, D.E.A. and F.B.I., to name just a few. It's the name you want on your temple when all hell breaks loose. Wiley X eyewear is built to last in rigorous military and law enforcement situations, and built to live up to the name we created: HVP™, High Velocity Protection.

X

N.

FOR NEARLY TWO DECADES, WILEY X EYEWEAR HAS BEEN FIELD TESTED BY SOME OF THE MOST DEMANDING FIGHTING FORCES ON EARTH, IN SOME OF THE MOST DEMANDING PLACES ANYWHERE.

WILEY X

THE WILEY X FACTOR:

SHATTERPROOF LENSES, DURABLE FRAMES, WELL PROTECTED ARMED FORCES

SHATTERPROOF SELENITE™ POLYCARBONATE LENSES

Each Wiley X lens is made from one of the world's most impact resistant lens material (trust us, we've scoured the globe for durable lens ideas). They far exceed ANSI Z87.1 safety and ANSI Z80.3 optical standards.

SCRATCH RESISTANT LENS HARDCOAT

Wiley X lenses protect eyes; this resilient coating protects the lenses. Get fewer of those annoying little scratches and nicks.

UNBREAKABLE TR 90 FRAMES

Customers have told tales of their frames being run over by moving vehicles, yet they remained intact. That's the immeasurable advantage of owning a Wiley X.

ULTRA FOAM™ AND FACIAL CAVITY™ SEALS

Select styles totally seal your eyes off from the elements outside with Ultra Foam™ inserts and a technology we like to call Facial Cavity™ design. They're designed to fit and seal comfortably over any eye socket. Made to fit the universal face.

LENS ANATOMY

Fending off the blazing sun, flying shrapnel, wind-driven sand and other air-borne debris is the duty of Wiley X lenses. Our industry leading standards are achieved through precision manufacturing and state-of-the-art quality control. We start with our shatterproof Selenite™ lenses which are formulated and die-cut from the exact center point of each lens blank to eliminate distortion. Result: precise optical clarity. We then add the exact amount of dyes needed to eliminate eye fatigue and strain. All Wiley X lenses block 100% of the sun's harmful UVA and UVB rays (up to 400 nanometers). Because in the end, protecting eyesight is job one.

Fold out this page to reference lenses and frames as you browse the catalog.

LA™ LENSES Darken as the brightness of the sun dictates. Darkest on bright days, clear on overcast days. Maximize optical clarity. Shatterproof. See Page 7 for details. Light transmission: 85% to 17% (in sunlight).

SMOKE (GREY) LENSES* Maximum glare reduction. Won't distort colors. Excellent in bright/glare conditions. Light transmission: 20.23%, 13.40% Polarized.

CLEAR AS CRYSTAL LENSES Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89.30%.

LIGHT RUST LENSES Filters out blue light waves, the chief component of glare and haze. Enhance contrast in medium to low-light conditions. Light transmission: 53.23%.

SMOKE GREEN LENSES* Maximum glare reduction without distorting colors. Great for general daytime use. Light transmission: 21.09%, 19.03% Polarized, 15.20% Polarized Smoke Green Flash.

PALE ROSE LENSES Improve details and enhance depth perception when encountering low or artificial light conditions. Light transmission: 51.34%.

BRONZE BROWN LENSES For superior visual definition. Increase contrast, enhance ground level contours in most light conditions. Light transmission: 20.15%, 19.25% Bronze Flash, 19.05% Bronze Brown Flash.

COPPER LENSES* Great lens to curb glare and enhance contrast of colors found in various global terrains. Light transmission: 18.17% Polarized.

PALE YELLOW LENSES Best light enhancing lens tint. Filter out blue light waves and the preferred lens on overcast or low light days. Light transmission: 86.42%.

CRIMSON RED MIRROR LENSES Multi-coat, Z-Oxide™ mirror over smoke lens. Absorbs reflections across mirror surface, diminishes glare. Ideal in bright conditions. Light transmission: 20.09%.

BLUE ICE / BLUE STEEL MIRROR LENSES Multi-coat, Z-Oxide mirror over smoke lenses. Absorb reflections across mirror surface, diminish glare. Ideal in bright conditions. Light transmission: 4.84%, 8.84% Blue Steel.

SILVER FLASH MIRROR LENSES* Multi-coat, Z-Oxide mirror over smoke lens. Reduces glare. Excellent on bright days. Light transmission: 7.19%, 9.60% Polarized.

SUNBURST MIRROR LENSES Multi-coat, Z-Oxide mirror over smoke lens. Ideal in high glare conditions. Light transmission: 15.09%.

BLUE LUNAR MIRROR LENSES* Multi-coat, Z-Oxide mirror technology over emerald lens. Reduces glare, sharpens detail. Enhances neutral colors. Good from dusk to bright sun. Light transmission: 10.02%, 12.33% Polarized.

Taking the Work & Play concept to new heights; Wiley X ANSI approved frames can be filled with a prescription safety lens that meets most on-the-job safety requirements. Certain restrictions apply — ask your Account Representative for more details.

**Offered polarized in select styles. See [8-layers to Clarity](#) section for details on Wiley X Filter 8 Polarized Lenses. They provide 100% UV protection and 99.9% polarization from sun's rays.*

WILEY X POLARIZED LENS 101: 8 LAYERS TO CLARITY.

SLICK™ Clear optical coating is a super hydrophobic mixture that repels water, salt water and ice from the lens. It prevents surface spotting. This advanced coating makes smudges and stains easy to remove with soft micro fiber case enclosed with all Wiley X frames.

T-SHELL™ This flexible hard coat adds an extra layer of scratch resistance to each lens for added protection and longer life. Keeps the lens from cracking or crazing to maintain clear vision.

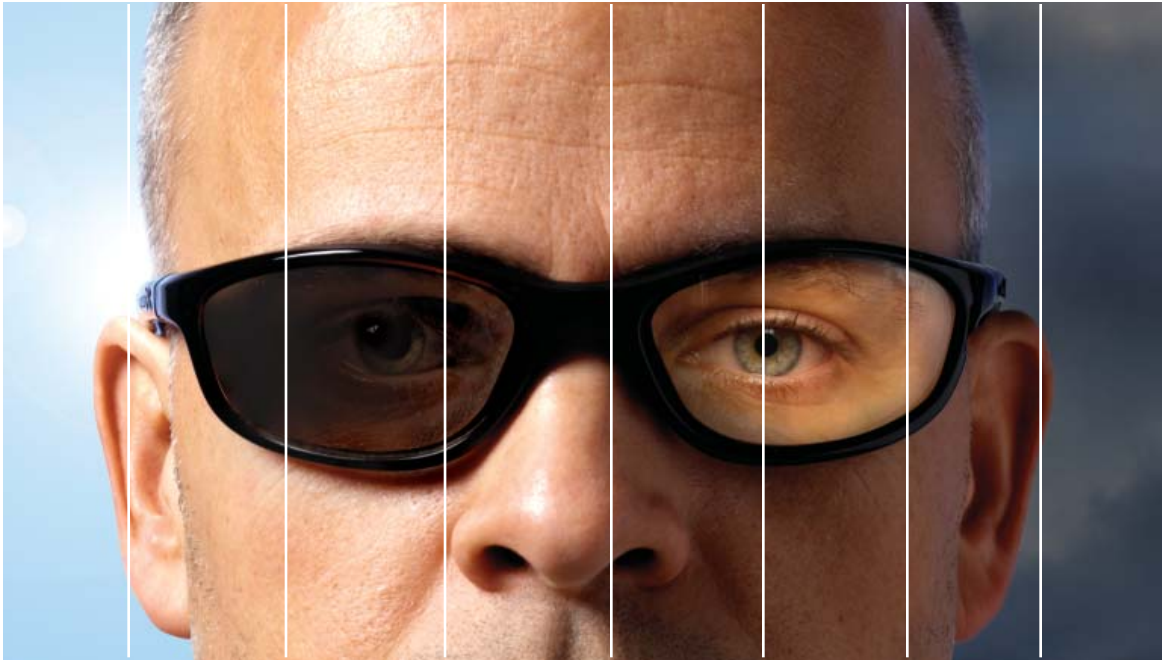

SELENITE™ POLYCARBONATE LENSES
Source of the shatterproof reliability of Wiley X lenses. Each lens is die-cut from a larger lens blank to eliminate distortion and provide optical clarity at all angles. 10x more impact resistant than glass or resin lenses and easily exceeds global impact standards.

FILTER 8™ POLARIZED FILM For our polarized lenses, this proprietary film adds 99.9% polarization to 100% ultra violet protection for unequaled clarity and contrast. In conjunction with our other high tech coatings, allows perfect amount of light to reach the eye's pupils. Helps achieve perfect visual acuity.

VIOLET 4™ AR (ANTI-REFLECTIVE) COATING
Adds another optical filter to each lens to eliminate back-lit glare, a major cause of eye fatigue and strain.

FILTER 8™ TECHNOLOGY

LA™ LENSES: LIGHT ADJUSTING

In the face of danger, who has time for lens changing? LA Lenses change for you. They literally adjust to the light conditions so you don't have to. In bright conditions, they're dark. As the sky darkens, the lenses lighten. Optical clarity remains perfect no matter what kind of light the day brings. And since Wiley X uses shatterproof polycarbonate, the lenses are far safer than old photochromics (glass that could shatter on impact). All in all, these lenses are state-of-the-visual arts.

A soldier in full combat gear, including a helmet and tactical vest, stands in a desert landscape. He is looking up at a massive, bright orange and yellow explosion in the sky, with a large plume of white smoke and debris trailing behind it. The ground is dry and rocky, with some low stone walls in the foreground.

WINNING THE BATTLE TO SAVE EYESIGHT.

In situations where uniformed servicemen and women are in harms way, their eyesight shouldn't be. That's why Wiley X goggles are a favorite with nearly everyone who dons a uniform. Customizable (day and night lenses with temples for ballistic sunglass conversion). Shatterproof lenses, durable Ultra-Foam™, Foil™ anti-fog technology aid visibility and provide protection under fire. Streamlined design and dual pivot strap provides comfort over or under any helmet configuration.

CLASSICS

A black helicopter is positioned at the top of the frame, with its rotors blurred from motion. Three soldiers in dark tactical gear are rappelling down a rope from the helicopter, descending towards the bottom of the frame. The background is a clear, light blue sky.

MADE IN A LAB.

PROVEN IN THE FIELD.

Take smoke, sand, and fire—whip it into a frenzy with whirling chopper blades, or fierce winds. Now you have an idea of the environment Wiley X set out to conquer with the Climate Control™ Series (C.C.S.). This eyewear selection can't be beat when it comes to fast paced action and the need to seal off your eyes from outside elements. C.C.S. technology is as determined and tenacious as the men and women who wear them. All Climate Control™ styles exceed High Velocity ANSI impact standards.

PRESCRIPTION EYEWEAR

Wiley X Eyewear highly recommends that you contact us directly to fill any and all prescriptions. Filling your prescription through any optician or non-certified lab could compromise one's safety. Don't risk injury filling your Rx with any lens material other than shatterproof polycarbonate. For more information regarding prescriptions, contact your Account Rep for details. If you have questions, contact Wiley X between 8am-5pm Pacific Time at 800.776.7842.

TERMS AND CONDITIONS

All Wiley X models may be combined when compiling a quantity order. Extreme care is taken when packaging all products we ship. If discrepancy occurs a claim should be made immediately.

Standard Terms: NET10 (upon credit approval)

Volume Terms: 2% 10 NET 30 (upon credit approval)

COD Invoices incur minimal shipping and handling fee

Credit Card (Visa, Master Card, Discover, American Express)

WARRANTY

All Wiley X products are fully guaranteed for one year from date of purchase on material and workmanship. This does not cover negligence in use of the product that extends to scratched lenses. Upon receiving the defective item Wiley X will repair or replace it at no charge. Authorization is not required for the return of defective merchandise. Please include the amount of \$5.00 for return shipping and handling.

RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization. Returns must be in resalable condition, as determined by Wiley X. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent attention: RETURNS DEPARTMENT.

NSN NUMBERS

HIGH VELOCITY EYEWEAR GOES HIGH SPEED

Wiley X will make an impression upon millions of NASCAR fans with our sponsorship of the #01 U.S. Army Chevrolet and Army Racing for Nextel Cup events. With 16-time NASCAR Busch Series winner Joe "Front Row Joe" Nemechek at the wheel, the Wiley X name is sure to be at the center of some great racing action.

WILEY X IS DEDICATED TO PROTECTING THE VISION OF OUR PROTECTORS

Military and law enforcement personnel have range-tested, field-tested and battle-tested Wiley X products for more than 18 years. Over that time they've given us invaluable input and in many cases functional design ideas that proved useful when creating new eyewear. For this, and for protecting our nation, our freedom and our families, we are eternally grateful.
